Tom-

I do not remember the year, but the Mosquito Net was started by Carole, KC4VIN, in the early 1990s. Have photo of a Mosquito Net Tailgate from 1993.

Since then, Net Controls were KC4VIN, W4TAT, KC4VIN, KI4YQR. (Bob Keim, W4TAT is a Silent Key.)

Since the beginning of the net, a Mosquito Number was assigned to each member. While Buzz, KI4YQR was net control, the number got up to over 1030. A member would check into the net giving both their call and Mosquito Number.

Carole, KC4VIN is number 1. Jose, KC4VIO is number 2. Archie, WN3DHI is number 5. My number is 186. Bob, W4TAT was 882. Buzz, KI4YQR is number 1000. (Jan, W4REN is number 6146.)

My copy of the roster is from 2011, so it does not have members after 1030. If you are interested, Buzz may have the latest version from when he was net control.

There is a website created by N5GX, Dan in Merritt Island <http://n5gx.com>, that can be used by a net control. In addition to providing information about a station that checks in, it provides their Mosquito Number if they have one.

73,
Fred
